2024 DIXON GARDEN FAIR

The Dixon celebrates spring with the Dixon Garden Fair – the gardening event of the season — April 18-20! This year’s annual plant sale will offer over 15,000 plants with a focus on rare, choice and unusual varieties as well as essential plants for the Mid-South garden. You will also find an extensive selection of herbs, ferns, camellias, native azaleas and herbaceous and Itoh peonies. This event has something for plant enthusiasts at all levels and interests – from the beginning gardener to the certified plant nerd.

Dixon members will have an opportunity to shop early at the Members-Only Sale day, April 18 from 12:00-7:00pm. Reservations are NOT required.

The plant sale is open to the public Friday, April 19 from 9:00am- 4:00pm and Saturday April 20 from 9:00am- 2:00pm. Dixon garden staff and Memphis Area Master Gardeners will be available to answer your gardening questions.

Bring Your Wagon

Shopping carts will be available, but as those of you who have attended the sale know, we sometimes run out. Bring your wagon and we’ll help you load it with beautiful plants!

Herbaceous Peonies

Herbaceous Peonies are the best known type of peony. They are disease resistant perennial plants that enhance the structure and beauty of any garden and produce some of the best cut flowers available. They bloom during the transition from spring into summer. The shining green leaves remain throughout the summer, die back to the ground in winter and reemerge each spring. Herbaceous peonies require little care and live for generations.

Peony 'Buckeye Belle'

Peony 'Coral Sunset'

Peony 'Duchesse de Nemours'

Peony 'Festiva Maxima'

Peony 'Kansas'

Peony 'Karl Rosenfeld'

Peony 'Laura Dessert'

Peony 'Pink Hawaiian Coral'

Peony 'Red Charm'

Itoh Peonies

Intersectional Peonies, also known as Itoh, are a hybrid created by crossing a tree peony with an herbaceous peony. These peonies produce tree peony flowers and leaves on plants that behave like herbaceous peonies, dying down to the ground in winter and reemerging each spring. A mature plant may produce 50 or more dinner-plate sized flowers on strong short stems that do not require staking. They reach peak bloom near the end of the herbaceous peony bloom. Each plant can remain in bloom for 3-4 weeks with new buds continually opening over this period. They will grow to three feet tall and wide and continue to improve with age.

Peony 'Canary Brilliants'

Peony 'Cora Louise'

Peony 'Garden Treasure'

Peony 'Julia Rose'

Peony 'Pastel Splendor'

Peony 'Scarlet Heaven'
